| Patient            | Arun (Male, 29 y) | Report ID | VNT-ARU-2026-07-18-SPIROMETRY |
| Referred / seen by | Dr. K. Iyer       | Reported  | 18 Jul 2026                   |

Vitals

|        |        |      |                     |
|--------|--------|------|---------------------|
| Height | Weight | SpO2 | Asthma Control Test |
| 175 cm | 79 kg  | 98%  | 22 / 25             |

Lung function

| Measure           | Before reliever | After reliever | Predicted  | Change |
|-------------------|-----------------|----------------|------------|--------|
| FVC (L)           | 4.70 (95%)      | 4.78 (97%)     | 4.95       | +2%    |
| FEV1 (L)          | 3.72 (90%)      | 3.86 (94%)     | 4.12       | +4%    |
| FEV1 / FVC        | 0.79            | 0.81           | above 0.72 |        |
| Peak flow (L/min) | 560             | 575            | 592        | +3%    |

Impression

Lung function in the normal range on treatment, little change after the reliever. Asthma well controlled (ACT 22/25, 20 or more is controlled). One flare in the past year (Oct 2025).
