

Dr. S. Rao's clinic

Dr. S. Rao · Hanamkonda, Warangal · fictional

HYPERTENSION, FIRST DIAGNOSIS

Patient	Lakshmi (Female, 59 y)	Report ID	VNT-LAK-2018-03-10-DX
Referred / seen by	Dr. S. Rao	Date	10 Mar 2018

Vitals

BP (sitting)	BP (after 10 min)	Pulse	Weight
162/98 mmHg	158/96 mmHg	78 /min	63 kg

Notes

BP raised on 24 Feb and again today. Home readings over two weeks average 154/94. Occasional morning headache. No chest pain, breathlessness or ankle swelling. Heart sounds normal. Diagnosis: essential hypertension.

Rx

Medicine	How to take	For	Qty
Metoprolol 25 mg	1 tablet morning, 1 tablet at night, after food	1 month, then review	60

Advice

- No extra salt at the table; fewer pickles and papads.
- Walk 30 minutes a day.
- Bring home BP readings in 4 weeks.
- Blood tests and ECG before the next visit.
